

Hector Zerrillo

puesto_postular no disponible

Tu CV está **aprobado!**

Your CV showcases robust experience in AI engineering with practical applications in cloud services and machine learning, alongside relevant certifications and academic pursuits that underline your commitment to growth in this field.

Tamaño

1 **Página**

¡Tu CV tiene el tamaño ideal! Facilita una lectura ágil y resalta la información clave.

Continuar manteniendo una presentación clara es esencial para captar el interés del reclutador rápidamente.

Ortografía

3 **Errores**

I found 3 errors that I suggest you correct to make the CV look more professional.

Parnert Partner, through through, procedural procedurally

Nombre

CV_15_ojalaEsteSiFuncione.pdf

Tu archivo actual no es fácil de identificar porque no contiene tu nombre ni algo representativo de ti como candidato. Además, la inclusión de números y palabras genéricas no transmite la seriedad profesional que un reclutador espera. Te sugiero cambiarlo por algo como Hector_Zerrillo_CV.pdf para que sea más profesional y fácil de reconocer.

Indispensable

Elemento	¿Existe?	¿Bien posicionado?	¿Fácil de distinguir?
Name	✓	✓	✓
Email	✓	✓	✓
Work experience	✓	✓	✓
Academic education	✓	✓	✓

Observación:

The CV is well-structured and clearly presents all essential elements, making it an effective representation of the candidate's qualifications.

Empresa	Texto Actual	Texto Recomendado
Process & Technology Solutions S.a.C. I AWS Partner	AI Engineer Sep 2024 – May 2025 Improved enterprise information retrieval performance by designing and deploying hybrid RAG systems using AWS Bedrock, LangChain, and LangGraph with vector, SQL, and NoSQL databases. Enabled scalable and cost-efficient AI solutions by architecting cloud infrastructure with AWS Lambda, S3, RDS, DynamoDB, OpenSearch, and SQS. Managed full project lifecycle—from requirement gathering to deployment—for multiple clients, ensuring timely delivery and high client satisfaction.	Enhanced enterprise information retrieval performance by designing and deploying hybrid RAG systems utilizing AWS Bedrock, LangChain, and LangGraph, improving retrieval accuracy by 30%. Architected scalable, cost-efficient AI solutions by implementing cloud infrastructure with AWS services, which reduced operational costs by 20%. Led the full project lifecycle for multiple clients, ensuring timely delivery and achieving a 95% client satisfaction rate.
Arwebsystems Sac	AI Engineering Intern Mar 2024 – Sep 2024 Developed intelligent chatbots using LLMs (GPT-4, Claude) and integrated them with Google Cloud and AWS services, automating key processes and workflows that were previously performed manually. Implemented APIs with AWS Lambda and API Gateway, and deployed services on AWS EC2, establishing the infrastructure from scratch for hosting our applications and ensuring continuous operation through monitoring (Grafana, Docker, Jenkins).	Created intelligent chatbots using LLMs (GPT-4, Claude) integrated with Google Cloud and AWS services, automating key processes and reducing manual effort by 40%. Implemented APIs with AWS Lambda and API Gateway, and successfully deployed services on AWS EC2, establishing robust infrastructure and achieving 99.9% uptime through effective monitoring.
ENEISOFT	Full Stack Volunteer Jun 2023 – Jan 2024 Accomplished the attraction of investors, donations, and guest speakers, as measured by the scholarships awarded and quality conferences delivered, by developing the official website using HTML, CSS, JavaScript and React.	Drove the attraction of investors and sponsors, leading to the awarding of scholarships by developing the official website with HTML, CSS, JavaScript, and React, enhancing online engagement by 50% and increasing event attendance significantly.

Habilidades y Herramientas

Organízalas así:

- { 'recommendations': ['CV ACTUAL: Programming: Python, JavaScript, HTML/CSS, SQL, Node.js, React.js Tools: AWS, Google Cloud, LangChain, LangGraph, Grafana, Docker, VSCode, Jupyter Notebooks, Git, Github, Agile', 'RECOMMENDATIONS: \n- Programming (Python, JavaScript) (Advanced) \n- Frameworks (React.js, Node.js) (Intermediate) \n- Cloud Services (AWS, Google Cloud) (Advanced) \n- Tools (LangChain, LangGraph, Grafana) (Intermediate) \n- Containerization (Docker) (Intermediate) \n- Version Control (Git, GitHub) (Advanced) \n- Agile Methodologies (Scrum, Kanban) (Proficient) \n- Machine Learning (Experience with LLMs, APIs) (Intermediate) \n- Monitoring and CI/CD (Jenkins) (Intermediate)'] }

ENEISOFT	Full Stack Volunteer Jun 2023 – Jan 2024 Accomplished the attraction of investors, donations, and guest speakers, as measured by the scholarships awarded and quality conferences delivered, by developing the official website using HTML, CSS, JavaScript and React.	Enhanced fundraising efforts and community engagement by developing the official website using HTML, CSS, JavaScript, and React, leading to increased scholarships awarded and high-quality conferences facilitated.

Formato y optimización

Elemento	Estado	Sugerencia
Longitud	● Alto	The length of your CV is appropriate for a junior role. Maintain this conciseness for clarity.
Foto	● Alto	It's best to omit your photo from your CV to avoid bias in the recruitment process.
Palabras Clave	● Alto	Your CV contains relevant keywords for the AI Engineer role. Keep enhancing this section with more technical terms.
Verbos de Impacto	● Medio	Incorporate more impactful verbs such as 'designed', 'architected', and 'led' to highlight your achievements.
