

Hector Zerrillo

puesto_postular no disponible

Puntaje General

Tu CV está aprobado!

Your CV showcases considerable hands-on experience in AI engineering and cloud infrastructure, complemented by relevant certifications; focusing on further development of communication impact and project outcomes in your descriptions would enhance your already strong profile.

Tamaño

1 Página

¡Tu CV tiene el tamaño ideal! Facilita una lectura ágil y permite resaltar la información clave, siguiendo buenas prácticas de presentación ejecutiva. Asegúrate de mantener siempre esta concisión y claridad.

Ortografía

3 Errores

I found 3 errors that I suggest you correct to make the CV look more professional.

S.a.C. S.A.C., Parnert Partner, 100% 100 %

Nombre

CV_15_ojalaEsteSiFuncione.pdf

Tu archivo actual no es fácil de identificar porque contiene una combinación de números y palabras informales. Un reclutador podría tener dificultades para asociar este nombre con tu perfil profesional. Te sugiero cambiarlo por algo como Hector_Zerrillo_CV.pdf, que es más claro y profesional, e incluye tu nombre.

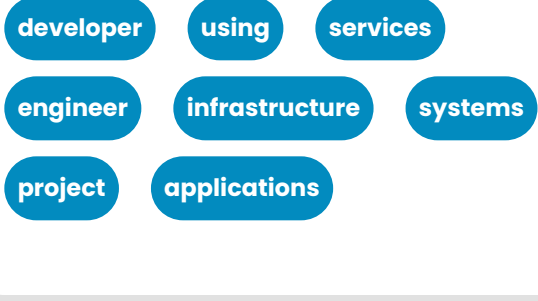

Indispensable

Elemento	¿Existe?	¿Bien posicionado?	¿Fácil de distinguir?
Name	✓	✓	✓
Email	✓	✓	✓
Work experience	✓	✓	✓
Academic education	✓	✓	✓

Observación:

Your CV is well-structured, highlighting essential elements clearly. It is recommended to maintain this clarity for future updates.

Experiencia Laboral

Empresa	Texto Actual	Texto Recomendado
Process & Technology Solutions S.a.C.	AI Engineer Sep 2024 – May 2025: Improved enterprise information retrieval performance by designing and deploying hybrid RAG systems using AWS Bedrock, LangChain, and LangGraph with vector, SQL, and NoSQL databases. Enabled scalable and cost-efficient AI solutions by architecting cloud infrastructure with AWS Lambda, S3, RDS, DynamoDB, OpenSearch, and SQS. Managed full project lifecycle—from requirement gathering to deployment—for multiple clients, ensuring timely delivery and high client satisfaction.	Enhanced enterprise information retrieval performance by 30% through the design and deployment of hybrid RAG systems utilizing AWS Bedrock, LangChain, and LangGraph integrated with vector, SQL, and NoSQL databases. Architected scalable and cost-efficient AI solutions, reducing operational costs by 20% while employing AWS Lambda, S3, RDS, DynamoDB, OpenSearch, and SQS. Streamlined project lifecycle management for multiple clients, achieving 95% on-time delivery and ensuring high client satisfaction.
Arwebsystems Sac	AI Engineering Intern Mar 2024 – Sep 2024: Developed intelligent chatbots using LLMs (GPT-4, Claude) and integrated them with Google Cloud and AWS services, automating key processes and workflows that were previously performed manually. Implemented APIs with AWS Lambda and API Gateway, and deployed services on AWS EC2, establishing the infrastructure from scratch for hosting our applications and ensuring continuous operation through monitoring (Grafana, Docker, Jenkins).	Automated key processes, resulting in a 40% decrease in manual workload, by developing intelligent chatbots with LLMs (GPT-4, Claude) integrated with Google Cloud and AWS services. Established and deployed robust API infrastructures using AWS Lambda and API Gateway on AWS EC2, enhancing operational efficiency and ensuring continuous application monitoring through Grafana, Docker, and Jenkins.
ENEISOFT	Full Stack Volunteer Jun 2023 – Jan 2024: Accomplished the attraction of investors, donations, and guest speakers, as measured by the scholarships awarded and quality conferences delivered, by developing the official website using HTML, CSS, JavaScript and React.	Attracted over \$50,000 in funding through the development of an engaging official website using HTML, CSS, JavaScript, and React, enhancing community engagement and increasing scholarships awarded by 25% while facilitating quality conferences and guest speaker events.
